# How sexy! Jess lets her hair down!

As her relationship with Justin heats up, she tries a hot new look

Single: tightly pulled back

"Jessica's sleek updo shows she's trying to look polished and sophisticated, but it seems standoffish," Nyree Busby, stylist at Salon AKS in NYC, says about the star's red-carpet style.

Loose and wavy with Justin!

JT's low-key vibe has rubbed off on Jess! "Flirty waves show her romantic heart," says stylist Michael Blomsterberg.

Jessica Biel looks sexier and more relaxed than ever! No doubt her relationship with Justin Timberlake has something to do with it.

"Falling in love is freeing," says Michael Blomsterberg, stylist and author of *Hairapy: Deeper Than the Roots*. "Jessica went from a very formal style to casual, low-maintenance waves."

Nyree Busby, a stylist at Salon AKS in NYC, agrees: "A new romance is exciting and fun and gives a woman that boost of confidence to change her locks."

**Get Jess' look:** Spritz gel on damp hair, then blow-dry with a diffuser. Once hair is dry, use a 1¼-inch curling iron for perfect curls. Loose, wavy shoulder-length layers complement diamond- and heart-shaped faces.

## Jessica and Justin are getting hotter!

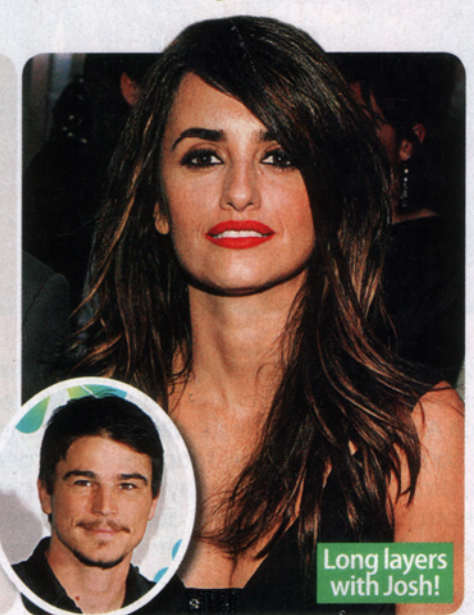

After a bumpy start earlier this year, the pair have been dating seriously for the past month and are already talking about moving in together! "Justin has finally admitted that he's falling in love," says a close friend of JT's.

## Stars' in-love styles!

Single: sophisticated updo

When Penélope Cruz began dating Josh Hartnett in March, she traded her severe 'do for a longer bed-head style. "She has come out of her shell

Long layers with Josh!

and wants to be sexy!" AKS stylist Nyree Busby says about the layered look, which flatters a square face like Penélope's.

Single: frizzy

Halle Berry began stepping out with Gabriel Aubry in 2006 and swapped her natural curls for a young-looking, edgy feathered cut, which is

Sleek with Gabriel!

best for oval faces. "This lighter style shows she feels as happy as she looks," says hair expert Michael Blomsterberg.
